- Hands on Experience on Angular CLI (command line interface). Good experience in developing mobile application by using JQuery, Angular JS, Angular2/4 and Bootstrap
- Expertise creating user validation forms and sending data to server using RESTful services.
- Developed CSS LESS and SASS styles on all the pages of an application and positioning of objects.

**Application Developer**

ADP

May 2017 – Oct 2017 • 6 mos

Roseland, New Jersey

- Experience in Angular 2 technology for one complete project, PANORAMA in rebasing the UI of the application using the techniques in Angular 2 and in one of the few teams who did the migration from Angular JS to Angular 4 with WordPress as a CMS wrapper.
- Designed dynamic client-side Typescript code to build web forms and simulate process for web application, page navigation and form validation using Angular 2.
- The main purpose of the application is to show the VDL components and VDL standards that are to be used to build their own applications/products internally in ADP using these ADP components. Developed and Implemented Angular router to enable navigation from one view to the next as user performs application tasks.
- Created reusable templates using Angular directives and worked with NPM package manager tools (Node JS) and build tools Grunt/Gulp.
- Developed a single page, mobile first, cross-device/cross-browser web application for real time utilizing Angular 2, JavaScript, REST API.
- Responsible in transforming the wireframes and mockups to develop web pages.
- Contributed by building few components like carousel, slide in and other components to Angular 2 Synerg library platform.
- Used GIT with the Source tree GUI for project versioning (formerly subversion / Versions GUI)
- Worked on Responsive web pages (RWD) using Bootstrap, RESTFUL API web development and media queries.
- Developed application from scratch and responsive UI using HTML5, CSS3, Bootstrap, JQuery, Angular2 and JSON. Used NPM and Bower package managers to install and manage all the required packages., made use of Gulp task runner to compile sass files to CSS minify files, compress images etc.
- Extensively worked on the JavaScript application to print the pages which is used to show the reports updated. Worked on the existing application which is in JavaScript to help resolve the bugs and on the new requirements.

**PHP and Web Developer**

Vonage

Oct 2016 – Apr 2017 • 7 mos

Holmdel, New Jersey
